

Vision Therapy Fees: 2020-2021 Alvord School District

\$140	<p>Evaluations Evaluations are always with an Optometrist. Includes: Visual Efficiency Evaluations Visual Information Processing Evaluations Dyslexia Evaluation Strabismus Evaluation</p> <p>Patients need at least one evaluation before therapy sessions can begin. Most children need 2 evaluations. Each evaluation lasts from 1-2 hours. Occasionally, a third evaluation will be necessary, especially for severe cases or children with other disabilities. After evaluations occur, an estimate on the number of therapy sessions will be given to the guardian of the patient. Number of evaluations required per child: 1-3. Estimated time per Evaluation: 1.5 hours</p>
\$80	<p>Therapy Sessions Therapy sessions are administered by an Optometrist or by a Vision Therapist with oversight by an Optometrist. The number of therapy sessions required may expand if the patient is non-compliant with home therapy. The estimated number of therapy visits needed is less accurate with children with other disabilities. Number of therapy visits required per child: 10-30 (est. provided after evaluation) Estimated time per session: 45 minutes</p>
\$100	<p>IEP/School Consultation Fees (per hour) Our doctors are happy to communicate with a child's healthcare and educational care team and attend IEP meetings whenever requested. We do not charge travel cost, but do include travel time in consultation fees.</p>
