

IDENTIFICATION AND EDUCATION UNDER SECTION 504

The Board of Education recognizes the need to identify and evaluate children with disabilities in order to provide them with a free, appropriate public education. Under Section 504 of the federal Rehabilitation Act of 1973, individuals with a physical or mental impairment that substantially limits one or more major life activities, including learning, are eligible to receive services and aids designed to meet their needs as adequately as the needs of nondisabled students are met.

The Superintendent or designee shall establish screening and evaluation procedures to be used whenever there is reason to believe that a student has a disability that limits his/her ability to attend or function at school.

To evaluate the student's eligibility under Section 504, the Superintendent or designee shall convene a school site committee of professionals knowledgeable about the student's individual needs and school history, the meaning of evaluation data, and accommodation options. The student's parent/guardian shall be invited to participate on this committee.

If the student is found to have a disability that requires services under Section 504, the school site committee shall develop a written accommodation plan for the student. Upon reviewing the nature of the disability and how it affects the student's education, the committee shall determine what modifications and/or special services and aids are needed. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs.

The school site committee shall provide the parent/guardian with a written copy of the accommodation plan and notice of procedural safeguards guaranteed by law.

If after evaluation, the school site committee determines that the student does not have a disability under Section 504, the committee shall document this determination. If appropriate, the student study team or school site committee shall develop a plan to assist the student. Students who have been assigned for special education and found by the IEP team not eligible for special education, shall also be considered for eligibility under Section 504.

IDENTIFICATION AND EDUCATION UNDER SECTION 504 (continued)

The district's local control and accountability plan shall include goals and specific actions to improve student achievement and other outcomes of students with disabilities. At least annually, the Superintendent or designee shall assess the district's progress in attaining the goals established for students with disabilities and shall report these results to the Board. (Education Code 52052, 52060)

(cf. 0460 - Local Control and Accountability Plan)

In providing services to students with disabilities under Section 504, the Superintendent or designee shall ensure district compliance with law, including providing the students and their parents/guardians with applicable procedural safeguards and required notifications. Any dispute as to the identification, evaluation, or placement of any student with a disability shall be resolved in accordance with the processes specified in the "Procedural Safeguards" section of the accompanying administrative regulation.

The Superintendent or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with the district in any other capacity except as hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.
