

## **Company Summary**

Safeguard Inc was founded in 2000. It originated in Sacramento California and is now based out of Lehi, UT. We are in the process of expanding to Southern Utah. Safeguard Inc is a transport company for youth and individuals who are going to treatment or academic programs. Along with transports we offer interventions, brief interim housing and other services as part of our effort to assist families and youth.

## **Services Provided**

### **Transport:**

- Pick up and transportation of clients to pre-determined agency/facility. There are over 40 Utah based treatment and academic programs that we transport to and from as well as other out of state facilities. This is the main leg of our company and the services that we offer.

### **Interim Housing:**

- Temporary placement of clients while in transition to pre-determined facility. •
- As clarification, we are not a group home or treatment facility nor do we have to

register as such with the State of Utah because we only ever have 3 or less occupants at any time. We are an independent private pay company who works solely with parents/guardians/or responsible parties for our clients.

### **Interventions:**

- We offer structured discussions with clients of current behaviors or addictions that are addressed and a plan of action is achieved to reach a positive outcome or set goal.
