

# Remove Barriers to Effective Teaching and Learning

Schoolology brings together the best K-12 learning management system with assessment management to improve student performance, foster collaboration, and personalize learning.

Schoolology is the leader in K-12 teaching and learning technology. Schoolology's solutions are used by 1,600 districts and millions of teachers to improve student performance while enabling equity and access for every student.

**Fostering Collaboration:** Schoolology allows all of the stakeholders in a district - administrators, teachers, students, parents, coaches, and more - to share resources and materials across their class, school, district or the broader Schoolology community.

**Increasing Student Engagement:** Student performance goes up when students are more engaged in learning. That is why Schoolology was developed to allow teachers to make learning engaging and interactive.

**Impacting Teacher Effectiveness:** The best way to make teachers more effective is to give them the time they need to work with students. Schoolology makes teachers more effective by bringing together all of their teaching tools, making it easy to build courses, share resources grade assessments and see how students are performing.

**Analyzing Data:** Schoolology gives administrators and teachers information about what students understand, what they have mastered, and what needs more developing. Bringing district-level data and course level data together to ensure resources are allocated properly and no students are falling through gaps.

**Creating Equity And Access:** Every student is different. Schoolology ensures that all students have access to the same quality of teaching and learning, regardless of their socio-economic status, SpEd needs, or any other circumstance.

## A Platform That Schools Depend On

 schoolology® +  **Aeries**  
Student Information System

- Integration includes student and course provisioning as well as final grade passback
- Integration is based on the IMS OneRoster standard
- Have confidence in data security since data passes directly between Schoology and Aeries
- Keep data current in both systems throughout the year—even when teachers switch sections or new students join a class
- Use a single interface for course design, grading, file storage, and classroom management
